SUMMARY

Front-End Developer with 1.5+ years of experience building scalable, high-performance web applications with React.js, Next.js, and TypeScript. Delivered production-ready solutions across LMS platforms, multi-tenant applications, payment integrations, and government-related systems. Focused on responsive UI, clean, maintainable code, and performance optimization.

EDUCATION

Bachelor's Degree in Computer Science — Excellent

09/2021 – 07/2025

Faculty of Computers and Artificial Intelligence, Sadat City University, Egypt

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Responsive & Cross-Browser UI.

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C#.

State & Data: Redux Toolkit, RTK Query, Axios, REST APIs.

Forms & Localization: React Hook Form, Zod, next-intl, RTL Support.

Tools & DevOps: Git & GitHub, ESLint, Prettier, Postman, Webpack, Babel, Docker, CI/CD Pipelines

Backend (Familiarity): .NET, Entity Framework Core (EF Core), SQL Server, LINQ.

PROFESSIONAL EXPERIENCE

Front-End Developer — Egyptian Armed Forces (Military Service)

03/2026 – Present

- Developed and deployed 3 web applications currently in active use within the Egyptian Air Force, supporting internal digital services.
- Built responsive, user-friendly interfaces that improved usability and overall user experience for internal systems.
- Collaborated with cross-functional teams to deliver production-ready features on schedule, following Agile practices and version control with Git.

Software Engineer — King Fahd National Library — Riyadh, Saudi Arabia

09/2024 – 06/2025

- Built 5 interactive book-display applications serving 800 users, with page load under 2 seconds and full responsiveness across mobile and desktop.
- Optimized book interaction and navigation flow to ensure smooth, responsive performance across all 5 applications.
- Integrated Flutter applications with front-end interfaces, ensuring seamless data flow and a consistent user experience.

Freelance Front-End Developer — Self-Employed

Present

Trend — Social Media Platform

- Developed a social media application with interactive UI/UX for an engaging user experience.
- Integrated RESTful APIs to manage user data and real-time content updates.
- Enhanced app responsiveness and optimized performance for a seamless, real-time user experience.

Interactive Chess Game

- Developed an interactive chess game with optimized performance across multiple platforms.
- Collaborated with designers to create an intuitive, visually appealing interface.
- Integrated AI for a challenging, dynamic player experience with smooth animations using Flutter's rendering engine.

PROJECTS

Nova-Mart — E-Commerce Platform | [GitHub](#) | [Live Demo](#)

Stack: Next.js, React, TypeScript, Redux Toolkit, RTK Query, next-intl, Tailwind CSS

- Built a responsive, multilingual e-commerce platform (English/Arabic) using Next.js App Router with full RTL localization via next-intl.
- Implemented Redux Toolkit and RTK Query for state management and API integration, covering product search, filtering, cart, Wishlist, checkout, authentication, and order management.

Flipbooks — Interactive Digital Presentation | [GitHub](#)

Stack: HTML5, CSS3, JavaScript, jQuery, Turn.js

- Built a responsive RTL flipbook application with touch/swipe gestures, keyboard navigation, click controls, and page-flip animations.
- Integrated Fullscreen video content and optimized the experience for Arabic and mobile users.

LANGUAGES

Arabic (Native) | English (Professional)
